Every company's first aid program should begin with an adequately stocked first aid cabinet. Our 5, 4, 3 and 2 shelf ANSI-2015 Compliant Class B first aid cabinets provide you with the proper mix of items to keep your employees safe, productive and on-the-job. Class B kits are intended to provide broader range and quantity of supplies to deal with injuries encountered in more populated, complex and/or high risk workplace environments.

### 4-Shelf Wide ANSI Cabinet

**22” T x 19” W x 5½” D**

More space for the items you need. Extra large cabinet contains a wide assortment of first aid supplies, employee comfort items, burn relief and other emergency supplies. Convenient door pockets allow for storage and easy access of smaller items. Easy to use side door opening cabinet can be wall mounted. Perfect for large industrial work settings. Fill meets ANSI Z308.1-2015.

According to a study conducted by the *University of Michigan...
Workers are overwhelmingly positive about having OTC medications in the workplace.

*University of Michigan Study Findings:

- The workers surveyed reported visiting their company health/medical department on average 10 times per year.
- The top four worker complaints that occurred while on the job were headaches, colds/sinus problems, muscle ache/pain, and burns.
- 73 percent of those surveyed regularly experienced headaches and cold and sinus symptoms while at work.
- More than half (55 percent) of those surveyed experienced muscle and joint pain at work.
- Almost half (46 percent) of employees experienced cuts and burns on their skin while on the job.
- 89 percent of those surveyed believed the over-the-counter medications provided by the company helped them feel well enough to complete their shifts.
- Employees strongly agreed with the statement: “I highly recommend having over-the-counter medications available to workers in other work sites that currently do not have over-the-counter medications in place.”
